Mobile: +91-9949401345

PROFILE SUMMARY :

- Technically Competent, diligent, and goal-oriented professional offering around 5+ years of IT experience, 4 years in DevOps tools like Git, GitHub, CI/CD, Jenkins, Terraform, Administration using AWS and Azure services, Build, Deployments.
- Extensively worked on Jenkins for CI/CD implementation by using pipeline scripts for End-to-End automation for all build and delivery, and resolving deployment failures and CDK.
- Deploy and manage applications on Azure and AWS
- Performed Linux kernel configuration and patch management.
- Networking concepts VPN, DNS, Firewalls, load balancing, and security protocols.
- Provided production support in an on-call rotation in a 24x7 environment.
- Knowledge of Bash Scripting Languages.
- Linux Systems managing and administering linux systems.

TECHNICAL SKILLS

CI & CD	Jenkins, Build Pipeline
Version Control Tool System, SCM	GIT, GitHub, GitHub Actions
Operating Systems	Linux, Windows, iOS
Programming	Bash, Shell, Python
DevOps	Terraform, Docker, K8S
Artifactory Repository	JFrog
Monitoring Tools	Cloud Watch, Azure Monitor, Prometheus and Grafana
AWS Certified SysOps Administrator - Associate	

Work Experience :

Company: Truminds Software System.

Designation: Senior Engineer

Duration: APR' 2026 – JUL' 2026

Roles and Responsibilities:

- Manage continuous integration pipelines and ensure smooth build execution
- Maintain build health and ensure timely delivery of integration drops
- Perform weekly basis PC releases after internal validations
- Track approval status and respond to feedback (approved/rejected)
- Collaborate with cross-functional teams to resolve issues
- Work with Git/Github workflows and enforce best practices.
- Debugging failure logs

Company: Atenas Code Pvt Ltd
Designation: DevOps Engineer
Duration: DEC' 2024 – AUG' 2025

Roles and Responsibilities:

- Designed and implemented Jenkins CI/CD pipelines for automated build and deployment.
- Automated firmware build and release process using shell scripts and Jenkins.
- Implemented Git-based branching strategy for version control and release management.
- Creating Terraform script files for infrastructure.
- Deployments and monitoring-related projects.
- Internal Prod releases and deployments.
- Creating Key pairs, Setup and monitoring alerts based on severity, Auto scaling and configuring scaling policies.
- Performing deployments to multiple environments like Dev, QA, Test & Prod environments.
- Extensively worked on Jenkins for CI/CD implementation by using pipelines scripts for End-to-End automation for all build and delivery and resolving deployment failures.

Company: Cabptoid Solutions
Designation: DevOps Engineer
Duration: MAY' 2024 – NOV' 2024

Roles and Responsibilities:

- Mainly involved in DevOps process for WAH application.
- This includes Terraform setup and migration of onprem system resources to cloud.
- Warranty Area Hub is a suite of application focused on quality improvement for supplier parts and utilized by suppliers and the Toyota quality team.
- Creating Paas script for deployments of each environment
- We use GitHub to keep all our source code and automation scripts, and Gitlab management.
- Creating and maintaining GIT repositories and experience in different operations.
- Verifying the logs if build fails.

Company: Cognizant Information technology
Designation: Associate
Duration: APR' 2021 – AUG'2022

Roles and Responsibilities:

- Designed Jenkins pipeline for automated firmware builds on code push.
- Implemented multi-branch pipeline with automated testing.
- Configured Docker-based build environment for consistent cross-compilation.
- Integrated static code analysis in CI process.
- Reduced manual release effort by 40%
- Implemented Git-based branching strategy for version control and release management.
- Reduced build failures by 30% by improving pipeline automation and dependency handling.
- Collaborated with hardware and QA teams for system integration testing.

Company: Savantis Solutions India Pvt Ltd (Client - HCL Technologies)

Designation: Analyst

Duration: JAN'2020 – JAN'2021

Roles and Responsibilities:

- Creating new jobs in Jenkins and managing the build-related issues.
- Coordinating with the Development team to fix the build-related issues.
- Utilizing Cloud Watch to monitor resources such as EC2.
- Creating services using EC2 instances.
- Responsible to create various Cloud Watch alarms that send an Amazon Simple Notification Service (SNS) message when the alarm triggers. Created SNS notifications.
- Creating and configuration like Development, QA, Test, and Production Environments.
- Involved in Release management like planning, scheduling, and deploying Releases.
- Verifying the logs if build fails.
- Involved in job scheduling for daily and nightly build activity using Jenkins.
- Well-versed with install, configure, maintain and administer Linux operating system
- Creation of project folders and providing access to the specific users as per the project requirement.
- Providing L1/L2 Linux & AWS administration support (24*7)
- Creating users and groups using Identity Access Management (IAM) and assigned individual policies to each group.
- Configured AWS IAM and Security Group in Public and Private Subnets in VPC.

Company: Ananth Technologies

Designation: Trainee Engineer

Duration: MAY' 2017 – MAY' 2018

Roles and Responsibilities:

- Completing all tasks set by the seniors.
- Troubleshooting in case of any system issues.
- Creation of users and groups & assigning and managing access levels of permissions.
- Observing existing strategies and techniques and offering suggestions for improvement.
- Conducting research and collating data.
- Monitoring the file systems and CPU load for better performance
- Working closely with staff to foster professional values and build good relationships.
- Observing health and safety guidelines at all times.
- Attending meetings and workshops
- Submitting to all forms of evaluation during the traineeship.
- Compiling reports and delivering presentations to staff members and other stakeholders.

EDUCATION :

- Graduated **B.Tech** from **K L University**
